MOLE SAGOMATE LINEA MASTER / LINE MASTER PROFILE WHEELS

KIT PER **GRANITO** / KIT PER **MARMO**
GRANITE SET / MARBLE SET

Kit completo dalla sgrossatura alla lucidatura per macchine MASTER, GHINES ed altre.

Linea completa di mole a profilo da una sgrossatura veloce ad una lucidatura brillante grazie alle tecnologie brevettate Marmoelettromeccanica quali Frangistone e Long-Life. Mole sagomate che possono essere montate su tutte le macchine manuali che lavorano con utensili dotati di tastatore rotante, sia con vite M8 che con vite M10.

Con l'impiego dell'intero kit otterrete: massimo grado di lucentezza, totale assenza di righe ed ondulazioni, lavorazione senza polvere e nessuna lavorazione manuale aggiuntiva.

Complete set for all steps of the polishing process for MASTER, GHINES and other machines.

Complete line of profiling wheels for all steps of the polishing process. They are provided with the exclusive Marmoelettromeccanica technologies, such as Frangistone and Long-Life. These wheels can be mounted on all manual machines that employ rotating touchers with M8 or M10 screws.

By utilizing the entire kit you will obtain: perfect polish, total absence of scratches or lines, reduced production of dust and no need to further rectify by hand.

Mola Pre-Taglio /
Pre-Cutting Wheel

FRANGISTONE

LA MOLA BREVETTATA CHE TAGLIA COSTI E TEMPI
Per velocizzare i tempi di lavorazione offriamo l'innovativa e brevettata mola FRANGISTONE che frantumando già il 60% della pietra riduce costi e tempi di almeno quattro volte rispetto alla tecnologia tradizionale, garantendo una velocissima asportazione ed una lunga durata alle mole successive. Per granito, agglomerati di quarzo e pietre dure.

THE PATENTED WHEEL THAT CUTS COSTS

For the purpose of shortening the working times we offer the new and patented FRANGISTONE wheel, in itself able to grind 60% of the stone, therefore reducing to one fourth at most the delays and expenses of each project. The durability of the second step wheel is also improved.
For granite, quartz and hard stones.

POS. 0

SGROSSATURA VELOCE SU MATERIALI DURI

L'innovativa mola Razorstone, nata dalla tecnologia Frangistone, permette una velocità d'asportazione 5 volte superiore alle mole a settori tradizionali ed ha una durata nettamente superiore, garantendo una lunga durata anche alle mole successive.

FAST GRINDING ON HARD MATERIALS

The new Razorstone wheel, born from Frangistone technology, allows a 5 time faster grinding than the traditional segmented wheels. It has a longer lifespan and grants it to the following wheels too.

POS. 1-2-3

PROFESSIONAL

SGROSSATURA - PROFESSIONALE

Le mole con tastatore rotante per la profilatura che garantiscono eccezionale potere di asportazione e costante mantenimento del profilo per tutta la loro durata, grazie alle nostre tecnologie innovative. Per granito, agglomerati di quarzo, pietre dure e ceramica.

GRINDING - PROFESSIONAL

Profiling wheels with rotating toucher offering the strongest grinding power and an even retention of profile for their entire duration, thanks to our exclusive technologies. For granite, quartz, hard stones and ceramic.

BIPOWER

LA MOLA RETTIFICATRICE CHE NON SI DEFORMA

La mola indeformabile per una perfetta rettifica del profilo. Grazie a questa mola le successive mole lucidanti potranno lavorare in condizioni ottimali per una maggiore durata ed il massimo grado di lucentezza finale. Per granito, agglomerati di quarzo, marmi e pietre.

THE RECTIFICATION WHEEL THAT NEVER LOSES ITS SHAPE

The non-deformable wheel for the perfect profile rectification. Thanks to its work the following polishing wheels will work in ideal conditions, have a longer lifespan and grant the perfect final polishing. For granite, quartz, marble and hard stones.

POS. 4-5-6

LONG LIFE

L'INNOVATIVO SISTEMA DI LUCIDATURA

Costruite con pregiatissimo diamante stampato su corpo elastico, garantiscono una serie di vantaggi quali lunghissima durata, tempi di lavorazione dimezzati, totale assenza di righe, eccezionale grado di lucentezza con risultati insuperabili su marmi, graniti ed agglomerati di quarzo. Per granito, agglomerati di quarzo, marmi e pietre.

THE INNOVATIVE POLISHING SYSTEM

Made with precious diamonds molded onto an elastic rubber core, these tools offer multiply advantages: long life span, reduced process times, absence of lines, outstanding polish and deep gloss on marble, granites and quartz. For granite, quartz, marble and other stones.

POS. 1-2-3

ELETTROLITICA / ELECTROPLATED

SGROSSATURA MARMO

Le mole elettrolitiche, costruite secondo i più moderni ed avanzati sistemi di elettrodeposizione, consentono un ottimo potere di asportazione ed una lunga durata. Per marmi e pietre tenere.

GRINDING - MARBLE

Our electroplated wheels are made following the modern and innovative electroplated process which grants a very good grinding power and a long lifespan. For marble and soft stones.

BIPOWER

LA MOLA RETTIFICATRICE CHE NON SI DEFORMA

La mola indeformabile per una perfetta rettifica del profilo. Grazie a questa mola le successive mole lucidanti potranno lavorare in condizioni ottimali per una maggiore durata ed il massimo grado di lucentezza finale. Per granito, agglomerati di quarzo, marmi e pietre.

THE RECTIFICATION WHEEL THAT NEVER LOSES ITS SHAPE

The non-deformable wheel for the perfect profile rectification. Thanks to its work the following polishing wheels will work in ideal conditions, have a longer lifespan and grant the perfect final polishing. For granite, quartz, marble and hard stones.

POS. 4-5-6

LONG LIFE

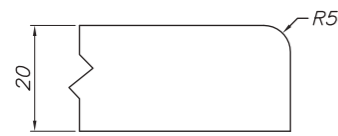

L'INNOVATIVO SISTEMA DI LUCIDATURA

Costruite con pregiatissimo diamante stampato su corpo elastico, garantiscono una serie di vantaggi quali lunghissima durata, tempi di lavorazione dimezzati, totale assenza di righe, eccezionale grado di lucentezza con risultati insuperabili su marmi, graniti ed agglomerati di quarzo. Per granito, agglomerati di quarzo, marmi e pietre.

THE INNOVATIVE POLISHING SYSTEM

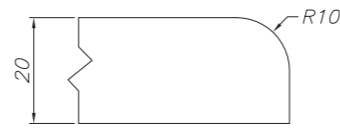

Made with precious diamonds molded onto an elastic rubber core, these tools offer multiply advantages: long life span, reduced process times, absence of lines, outstanding polish and deep gloss on marble, granites and quartz. For granite, quartz, marble and other stones.

MOLE SAGOMATE LINEA IW / LINE IW PROFILE WHEELS

KIT PER **GRANITO** / KIT PER **MARMO**
GRANITE SET / MARBLE SET

Kit completo dalla sgrossatura alla lucidatura per macchine MASTER, GHINES ed altre. Linea completa di mole a profilo da una sgrossatura veloce ad una lucidatura brillante grazie alle tecnologie brevettate Marmoelettromeccanica quali Frangistone e Long-Life. Mole sagomate che possono essere montate su tutte le macchine manuali che lavorano con utensili dotati di tastatore rotante, sia con vite M8 che con vite M10. Con l'impiego dell'intero kit otterrete: massimo grado di lucentezza, totale assenza di righe ed ondulazioni, lavorazione senza polvere e nessuna lavorazione manuale aggiuntiva.

Complete set for all steps of the polishing process for MASTER, GHINES and other machines. Complete line of profiling wheels for all steps of the polishing process. They are provided with the exclusive Marmoelettromeccanica technologies, such as Frangistone and Long-Life. These wheels can be mounted on all manual machines that employ rotating touchers with M8 or M10 screws.

By utilizing the entire kit you will obtain: perfect polish, total absence of scratches or lines, reduced production of dust and no need to further rectify by hand.

POS. 00

Mola Pre-Taglio /
Pre-Cutting Wheel

FRANGISTONE

LA MOLA BREVETTATA CHE TAGLIA COSTI E TEMPI
Per velocizzare i tempi di lavorazione offriamo l'innovativa e brevettata mola FRANGISTONE che frantumando già il 60% della pietra riduce costi e tempi di almeno quattro volte rispetto alla tecnologia tradizionale, garantendo una velocissima asportazione ed una lunga durata alle mole successive. Per granito, agglomerati di quarzo e pietre dure.

THE PATENTED WHEEL THAT CUTS COSTS
For the purpose of shortening the working times we offer the new and patented FRANGISTONE wheel, in itself able to grind 60% of the stone, therefore reducing to one fourth at most the delays and expenses of each project. The durability of the second step wheel is also improved.
For granite, quartz and hard stones.

POS. 0

SETTORI / SEGMENTED

SGROSSATURA VELOCE SU MATERIALI DURI
Le mole a settori garantiscono una veloce asportazione su materiali molto duri. La mola a settori garantisce un maggiore scarico e lubrificazione rispetto alle mole sinterizzate a fascia continua. Altezza settori 5 mm. Granito, agglomerati di quarzo e pietre dure.

FAST GRINDING ON HARD MATERIALS
The new Razorstone wheel, born from Frangistone technology, allows a 5 time faster grinding than the traditional segmented wheels. It has a longer lifespan and grants it to the following wheels too.
For granite, quartz and hard stones.

POS. 1-2-3

ZENITH

SGROSSATURA

Le mole con tastatore rotante per la profilatura che garantiscono eccezionale potere di asportazione e costante mantenimento del profilo per tutta la loro durata, grazie alle nostre tecnologie innovative. Per granito, agglomerati di quarzo, pietre dure e ceramica.

GRINDING

Profiling wheels with rotating toucher offering the strongest grinding power and an even retention of profile for their entire duration, thanks to our exclusive technologies. For granite, quartz and hard stones.

BIPOWER

LA MOLA RETTIFICATRICE CHE NON SI DEFORMA

La mola indeformabile per una perfetta rettifica del profilo. Grazie a questa mola le successive mole lucidanti potranno lavorare in condizioni ottimali per una maggiore durata ed il massimo grado di lucentezza finale. Per granito, agglomerati di quarzo, marmi e pietre.

THE RECTIFICATION WHEEL THAT NEVER LOSES ITS SHAPE

The non-deformable wheel for the perfect profile rectification. Thanks to its work the following polishing wheels will work in ideal conditions, have a longer lifespan and grant the perfect final polishing. For granite, quartz, marble and hard stones.

POS. 4-5-6

LONG LIFE

L'INNOVATIVO SISTEMA DI LUCIDATURA

Costruite con pregiatissimo diamante stampato su corpo elastico, garantiscono una serie di vantaggi quali lunghissima durata, tempi di lavorazione dimezzati, totale assenza di righe, eccezionale grado di lucentezza con risultati insuperabili su marmi, graniti ed agglomerati di quarzo. Per granito, agglomerati di quarzo, marmi e pietre.

THE INNOVATIVE POLISHING SYSTEM

Made with precious diamonds molded onto an elastic rubber core, these tools offer multiply advantages: long life span, reduced process times, absence of lines, outstanding polish and deep gloss on marble, granites and quartz.

For granite, quartz, marble and other stones.

POS. 1-2-3

ELETTROLITICA / ELECTROPLATED

SGROSSATURA MARMO

Le mole elettrolitiche con tastatore rotante costruite secondo i più moderni ed avanzati sistemi di elettrodeposizione, caratteristiche che consentono all'utensile di avere un ottimo potere di asportazione ed una lunga durata. Per marmi e pietre tenere.

GRINDING - MARBLE

Electroplated wheels with rotating toucher built with the most modern and efficient methods of electroplating, therefore offering the best grinding power obtainable and a long durability. For marble and soft stones.

BIPOWER

LA MOLA RETTIFICATRICE CHE NON SI DEFORMA

La mola indeformabile per una perfetta rettifica del profilo. Grazie a questa mola le successive mole lucidanti potranno lavorare in condizioni ottimali per una maggiore durata ed il massimo grado di lucentezza finale. Per granito, agglomerati di quarzo, marmi e pietre.

THE RECTIFICATION WHEEL THAT NEVER LOSES ITS SHAPE

The non-deformable wheel for the perfect profile rectification. Thanks to its work the following polishing wheels will work in ideal conditions, have a longer life-span and grant the perfect final polishing. For granite, quartz, marble and hard stones.

SCONTORNATRICE MASTER 3500 / MASTER 3500 ROUTER

La Master 3500 è una scontornatrice elettrica portatile con piastra di scorrimento "WATER SYSTEM", un dispositivo di scorrimento su un velo d'acqua che si interpone tra la macchina e la superficie da lavorare, garantendo così la non rigatura dei piani. La Master 3500 è costruita con materiali selezionatissimi, scelti tra i migliori produttori di materie prime.

Master 3500 is a portable electric contouring machine with "WATER SYSTEM" base board which creates a gliding water film between the machine and the slab. This system immediately eliminates the stone pieces broken during the working without scratching the surfaces. The Master 3500 machine is built with high-quality material, only coming from the best suppliers.

PIASTRA CON RUOTE / ROLLERS BASE BOARD

Per MASTER 3500 / For MASTER 3500

Rappresenta un optional che si può montare sulla Master 3500 e consente di lavorare anche su superfici non lucidate. Può essere rimossa in qualsiasi momento.

It is an optional which can be mounted on the Master 3500 machine in order to work both on polished and rough slabs. It can be dismantled with ease.

COD.

PIASTRAPLUSCR

PIASTRA WATER SYSTEM / WATER SYSTEM FIXED BASE BOARD

Per MASTER 3500 / For MASTER 3500

È un optional che si può montare con la massima facilità sulla Master 3500 dotate di ruote, sostituendo la piastra di scorrimento con ruote.

It is an optional which can be mounted on a Master 3500 machine with rollers, substituting the gliding plate with rollers.

COD.

WATERSYSTEMM3

PIASTRA CON RUOTE / ROLLERS BASE BOARD

Per MASTER 2800 / For MASTER 2800

È un optional che si può montare sulla Master 2800 e consente di lavorare anche su superfici non lucidate. Può essere rimossa in qualsiasi momento.

It is an optional which can be mounted on the Master 2800 machine in order to work both on polished and rough slabs. It can be dismantled with ease.

COD.

PIASTRAPLUS28

DISPOSITIVO TRIVENTOSA / TRIPLE VACUUM DEVICE

Con sagoma / With template

Rappresenta un'eccellente soluzione per la rettifica del foro dei top da bagno. La ventosa aderisce sul piano d'appoggio e ha il compito di bloccare la sagoma in PVC e al tempo stesso di bloccare il top da bagno per consentire la rettifica del foro con la Master, la cui guida è garantita dalla sagoma in PVC.

It is the perfect solution to rectify the internal hole of bathroom tops. The suction cups hold the PVC template on the surface, while the Master machine makes the hole by following its shape.

COD.

DISPOTRIVENTO

* in fase di ordine definire le dimensioni /
Size needed has to be included with the order

SUPPORTO DI SOLLEVAMENTO / LIFTING SUPPORT

Posizionando la Master 3500 o Master 2800 sul supporto di sollevamento è possibile rettificare, profilare e lucidare il bordo interno del foro dei top. La macchina scorre nella zona interna del foro facilitando notevolmente la lavorazione. Completo della prolunga per mandrino.

By positioning the Master 2800 or 3500 machine on the lifting support it is possible to rectify, shape and polish the hole's internal edge of a top. The machine will then glide in the internal part of the hole, thus simplifying the work. Spindle extension included.
